

PRODUCT : CA Internet Security Suite 2010

Single & 3 Users

Overview

All-In-One Security Protection

- **My Computer**

Your PC is automatically protected from threats 24/7. ISS Plus 2010 delivers industry-leading protection against viruses, spyware, worms, and much more in one complete, easy to use application.

- **My Internet**

You won't have to worry about malicious websites, thanks to real-time site validation which checks to see if a site is authentic and prevents access to fraudulent sites.

- **My Files**

Your important files are protected from loss by easy to use backup technology. You can perform incremental backups, which reduce the time and space needed to keep your files protected.

- **My Kids**

Multi-layer filtering ensures the utmost in protection by combining advanced filtering technology with a pre-classified database, URL cache categorization, tagging capabilities, and customized site lists.

BENEFITS

CA's all-in-one security suite gives you maximum protection against viruses, spyware, and other internet threats that can compromise your privacy and harm your PC.
