

Microsoft Comfort Optical Mouse 1000

Maneuver accurately and easily with Microsoft's Optical Technology -- the optical sensor delivers superior precision and control. Work more comfortably with an ergonomic design created for either hand. With no software, it's easy to use and set up.

Optical Technology

Navigate with better speed, accuracy and reliability—the optical sensor tracks movement on nearly any surface without the hassle of clogged mouse parts.

Comfortable in Either Hand

Use your mouse with your left or right hand—ambidextrous design makes it comfortable either way.

Customizable Buttons

Get quick access to the media, programs, and files you use most often with customizable buttons.

Scroll even faster

Move through your documents quickly without having to click on the scroll bar.

Additional Features:

- Three Buttons
- 3-Button Mouse
